

BB.PARAM ID	Description of Parameter
ACCUTERM.VERSION	AccuTerm version
ANALYSIS.COLOR	Accuterm color#
ANALYSIS.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
ANALYSIS.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
AP.COLOR	Accuterm color#
AP.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
AP.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
AR.COLOR	Accuterm color#
AR.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
AR.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
ART.1	C:\Program Files\Mozilla Firefox\firefox.exe http://www.purveyorsoftware.com/manuals.html
ART.2	C:\Program Files\Mozilla Firefox\firefox.exe http://www.facebook.com/home.php?#!/pages/Petridis-Fine-Art/203981721009?ref=ts
ART.EMAIL.1	' from TCL.PRINT.SCREEN and/or PRINT.SCREEN when 'S' is entered at their
ART.EMAIL.2	' from TCL.PRINT.SCREEN and/or PRINT.SCREEN when 'S' is entered at their
ASP	Application Service Provider? (Y,N (default))
BB.LOGON	Y=use GUI logons for BB4GL logons, N=don't
BQL.DATA	@@2,BQL.SYSTEM
CHECKIT	Controls whether UPD checks ENTRY.CONTROL for permissions.
CHECKS	6N
DEFAULT.COLOR	Accuterm color#
DEFAULT.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
DEFAULT.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
DISCONNECT	Y=disconnect from AccuTerm at logoff, N=not to
ENTRYCONTROL	(1=TOTAL PERMISSION, 2=ENTER AUTH CODE AT LOGON, 3=ENTER AUTH CODE AT PROGRAM, 4=USE LOGON AS AUTH CODE, 5=ENTER AUTH CODE AT BEGINNING OF EACH TRANSACTION), 6=USE PORT# AS AUTH CODE
ESC.EQS.STOP.PR.BP	Y=proc BPs stop using ESC key always, N=do same as Shift-tab
EXECUTE.AUDIT	Y=track all executions, N=don't
FAXQUEUE	Spooler print queue number of FAX LINK line.
GENERATE.MENU.MAP	N=no, Y=yes
GENERATE.SYSTEM.MAP	N=no, Y=yes
GETLISTSYNONYMS	GL
GL.COLOR	Accuterm color#
GL.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
GL.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
GLOBAL.DEBUG	Y=add (E to all commands processed through BARMENU and PDMENU, N=not to
INPUT.AUDIT	Y=track all input, N=don't
INVALIDFILES	DS.BP
INVALIDFILES.BRANCH1	DS.BP
INVALIDFILES.DS	DS.BP
LAUNCH.MANUALS	Use this paramater to specify the internet browser and webpage to use to find your user manual set
LEAVE.RVON	Leave reverse video on in inputs (EDINPUT4)?
MENU.AUDIT	Y=track all menu commands, N=don't
MENU.COLOR	Accuterm color#
MENU.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
MENU.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
MENUTYPE	P=PROC, D=PULL DOWN, B=BAR
MIS.COLOR	Accuterm color#
MIS.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
MIS.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
MISC	MISC2
OLDINVALIDFILES	DICT DS.BP
OSTYPE	ADDS=ADDS/mvBase, ULT=Ultimate, PICK=Pick/D3, UV=Universe, QM=QM, UD=UniData, SEQ=sequioa/MVE, VIS=A DDS/UniVision, JB=jBase, RLTY=Reality, IC=Intersystems, UP=UP
OVERRIDES.AUDIT	Y=track all overrides, N=don't
PATH.TO.EXCEL	Path to Excel on C: drive
PATH.TO.MSWORD	Path to MSWord on C: drive
PATH.TO.NOTEPAD	Path to NotePad on C: drive
PATH.TO.WORDEPAD	Path to WordPad on C: drive
PLANT.COLOR	Accuterm color#
PLANT.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
PLANT.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
PR.BP.PREV.FIELD.STRING	Enter the string(s), sep. by ;, used to jump to previous field in PROCs
PRICE.COLOR	Accuterm color#
PRICE.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
PRICE.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
PURCH.COLOR	Accuterm color#
PURCH.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
PURCH.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
PURGE.COLOR	Accuterm color#
PURGE.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
PURGE.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
RANDOMIZE.ART	Y=display an artists's work randomly, N=not to
REBATE.COLOR	Accuterm color#
REBATE.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
REBATE.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
REBUILD.COLOR	Accuterm color#
REBUILD.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
REBUILD.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
RRM.COLOR	Accuterm color#
RRM.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
RRM.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
SALES.COLOR	Accuterm color#
SALES.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
SALES.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
SEARCH.FILE.NAMES	File names to be searched in UTIL SEARCH and SEARCHER when file name = ALL is specified
SELECTORS	GL
SOFTWARE.ICON	Name of item in Default REI.PATH for software icon at logon
SOFTWARE.NAME	Put the name of the software package which is running the BB4GL.
SPOOLER.COLOR	Accuterm color#
SPOOLER.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
SPOOLER.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
START.BY.NUMBER	Y=start entry by number in SCROLL, N=not to

SUPPORT.EMAIL	' from TCL.PRINT.SCREEN and/or PRINT.SCREEN when 'S' is entered at their
SYS.LOGON	Y=use GUI logons for system logon, N=don't
SYSTEM.MUSIC.OFF	Y=turn BB4GL music off, N=leave it on
SpoolerTapeDirectory	Put in a C: or Network Dir here to send spoolers to
TCL.CASE.SENSITIVITY	0=TCL is case insensitive (TCL statements are upcased in EXEC.SUB),1=case sensitive (TCL statements are left alone)
UPD.COLOR	Accuterm color#
UPD.FORE.DATA	Color setting from AccuTerm programming color chart for foreground data colors
UPD.FORE.LABEL	Color setting from AccuTerm programming color chart for foreground label colors
VALID.COPY.TOS	POINTER-FILE
VALID.COPY.TOS.BRANCH1	JUNK
VALID.COPY.TOS.DS	JUNK
